

# FOODLUBE® HI TORQUE 320

Performance you can trust

## CUSTOMER

Mondelez (Cadbury) – Bournville

## CUSTOMER ISSUES

2 gearboxes on moulding plants were running extremely hot and very noisy

## APPLICATION REQUIREMENTS

8 tonne chocolate holding vessels, gearbox used to stir the chocolate.

Product needed to give good wear protection, protect from start up and be NSF H1.

## THE Rocol SOLUTION

Foodlube Hi Torque 320.

Strong EP film with SUPS.

## ACCEPTED BENEFITS / COST SAVING

ROCOL tested the gearbox oil and found it to be in a very poor condition.

By switching the oil to Foodlube Hi Torque 320 the gearboxes were saved from potential failure.

Potential savings;

Cost of a crown wheel: £17,800

Labour to remove and replace failed gearbox: £10,800

**Total potential savings: £28,600**

## CUSTOMER FEEDBACK

“The huge effort from the Rocol team has prevented a certain failure which we had not anticipated”

Peter Hill
