

# DEEP OCEAN GROUP

Performance you can trust

## CUSTOMER

DeepOcean, Darlington, UK.  
 An integrated provider of safe, high quality, innovative services and technologies for the subsea industry.

## APPLICATION DETAILS

DeepOcean owns and operates a range of trenchers, ploughs and ROVs around the world. Due to the demanding conditions the Umbilical's need to be well protected and lubricated to give long life and reliability.

## RECOMMENDED PRODUCT

BIOGEN WIRESHIELD®

## BENEFITS & COST SAVINGS

DeepOcean decided to use the BIOGEN WIRESHIELD as it has a unique Pseudoplastic Rheology allowing great penetration into the Umbilical's. The excellent anti-corrosion protection gives extended life reducing premature rope failure and as it is biodegradable with low eco-toxicity, allows DeepOcean to work in environmentally sensitive areas

## CUSTOMER FEEDBACK

"We were very impressed with the properties of the BIOGEN WIRESHIELD. Our Umbilical's are fully protected against corrosion and the main driver for us is the fact that it's biodegradable and has low eco-toxicity. We can operate confidently in all areas around the world knowing we have a safe high performing product that we can rely on."

Peter Jorgenson – Equipment Manager
