

**ROCOL®**

Performance you can trust

# EASY SOLUTIONS FOR SOCIAL DISTANCE MARKING FROM Rocol®

The government states that manufacturing plays an important role in the economy and can continue in accordance with social distancing guidelines.

When entering and leaving, you should ensure your workforce stays 2 metres apart as much as possible.

Our products will help workforces know what being 2m apart looks like and help improve the layouts of factories and workplaces adapting to a new way of working.

You can now prepare your business for a return to work, following the government's advice on safe distancing protocols. With these three products from Rocol® you can adapt your workplace with ease.

Our EASYLINE® EDGE line marking system, SAFE STEP® tapes and TEMPORARY™ fusion spot marking paint will make marking out safe zones a simple task that you can do yourself, quickly and effectively.

For temporary markings

# Permanent solution

## EASYLINE® EDGE line marking system

The EASYLINE EDGE line marking system is a quick and cost effective solution to mark out new permanent walkways and areas within your business.

Not only can you mark out lines quickly but it is essentially a DIY piece of kit. There is no need to bring in external contractors and therefore minimising the amount of people that your workforce would come into close contact with.

- ▶ Reduces downtime – dries in 10 mins and traffic ready in 30 mins\*
- ▶ Reduces costs – no need to employ contractors
- ▶ High quality paint creates longer lasting lines
- ▶ Resistant to most general chemicals and cleaning products e.g. petrol, diesel, floor cleaning fluids, de-icer, etc.

Use your phone camera to scan the QR code and watch a demonstration video

# Temporary solutions

## TEMPORARY™ fusion paint

TEMPORARY fusion spot marking paints are a quick and cost effective solution to mark out new temporary areas on a variety of surfaces.

You can mark out lines and quickly have people walking in the same area due to the fast drying time. Plus, if you need to remove or remark the lines in a different way, you can simply wash the paint away with water and a stiff brush.

- ▶ Over 100% more paint than similar spot markers
- ▶ Patented clog-free spray through cap
- ▶ Not harmful to the environment or to aquatic life
- ▶ Removable with water and a stiff brush
- ▶ One pass system and more durable markings

COLOUR	SIZE	CODE
Yellow	750ml	44031
Grey	750ml	44035

\* TEMPORARY™ Fusion is a temporary paint that will be removed when washed with water during regular cleaning procedures.

## SAFE STEP® tapes

Our range of SAFE STEP tapes are quick and cost effective solutions to mark out any temporary indoor areas as part of your new social distancing measures. They can be used to mark out correct spacing in brew rooms/offices, 2m distances in workshops or even shopping isles at the local DIY shop/supermarket.

As well as clearly marking out areas, our SAFE STEP tape is an anti-slip product so safer than standard tape. Especially in areas where there is a lot of movement from outdoors to indoors.

- ▶ Quick and easy to apply
- ▶ Available in Hazard tape, High Vis tape and Anti-Slip tape
- ▶ Capable of withstanding temperature extremes
- ▶ Ideal for indoor use on doorways, entrances, ladders, machinery platforms, ramps, scaffolding, steps and walkways.

PRODUCT	SIZE	CODE
Hazard tape	50mm x 18.25m	43547
High Vis tape	50mm x 18.25m	43540
Anti-Slip tape	25mm x 18.25m	43530
Anti-Slip tape	50mm x 18.25m	43531
Anti-Slip tape	100mm x 18.25m	43532
Anti-Slip tape	150mm x 18.25m	43533
