

EASYLINE[®] EDGE

Performance you can trust

The world's leading aerosol line marking paint

HARD WEARING

SHARP LINES

LESS WASTE

DRIES QUICKLY

MULTI WIDTH

MARKS CURVES

9 COLOURS AVAILABLE

EASYLINE® EDGE

The world's leading aerosol line marking paint just got even better.

Take a look at what makes the best even better!

DRIES QUICKER

Now with high output spray for rapid marking that is touch dry in as little as 8 minutes and traffic ready in 30 minutes*.

MARKS OUTSTANDING CURVED LINES

The adjustable rear stabilisers allow flexibility to paint next to curbs, walls and racking and to paint both straight and curved lines.

LINE MARKING MACHINE

Outstanding straight and curved line definition for multiple widths without needing tools. It is quick to assemble and simple to use; no experience or tools are needed.

With a superior paint formulation combined with the precision engineered line marking machine, the **EASYLINE EDGE®** system produces sharp, bright and durable lines that put you in control. The paint can be used indoors and outdoors for marking car parks, warehouses and stores, factory floors, playgrounds and sports courts and any other hard flat surfaces.

Better performance for lines

SHARPER EDGE THAN COMPETITORS

Our patented airflow system and improved masking plate design offers improved line edge definition versus leading line marking competitors.

LINE WIDTH ADJUSTMENT

The line marking machine is full adaptable for any line width from 50-100mm. The height adjustable handle also tilts for extra comfort.

More choice of colours

AVAILABLE IN 9 COLOURS

Choose from a palette of 9 colours. Whether it be hi-visibility yellow or opaque white, we have a colour to suit your needs.

Even more durable than ever before

HARD WEARING

The unique traffic grade epoxy produces highly durable lines that are resistant to most general chemicals and cleaning products.

LESS WASTE

Contains up to 100% more paint in the same sized can and lasts twice as long as any other line marking spray
